**October
2005**

Overview

- **Maintain one NSN per Item of Supply concept**
- **Need ability to show multiple sources for one NSN**
- **Variable number of records per NSN**
- **Show authorized users for each SoS**

Current Process

- **DAAS SoS record maintained in FLIS**
- **Only output via KSS to DAAS**
- **System (FLIS) generated transaction based on CMD data**

Proposed Process

- **Add additional DAAS SoS records for each PBL contract**
 - **Supported activities identified when SoS is established**
 - **Record built by DLIS SoS program manager**

Challenges

- **FLIS/DAAS modifications needed to allow multiple records**
- **New interface rules between FLIS/DAAS**
- **Service transaction needs to identify platform**
